National Intelligence Council

17 February 1983

NOTE FOR: Director of Central Intelligence

FROM :
Acting National Intelligence
Officer for Africa

STAT

SUBJECT : IIA-Ghana: The Rawlings Regime
One Year Later

Attached is a recently completed Interagency Intelligence Assessment on Ghana. It concludes that Ghana is in for a period of prolonged instability and that Western--particularly US--efforts to encourage moderate policies could be overshadowed as the regime becomes increasingly repressive in order to hide its political and economic shortcomings.
